

## RACE RIOT IN ATLANTA

Ten Killed and Forty Others Wounded.

SOLDIERS CALLED OUT.

Trouble Was Started by Several Assaults on White Women.

Atlanta, Ga., Sept. 24.—Twenty-four hours have passed since a race war of no mean proportions began in Atlanta. In that period at least 10 lives have been sacrificed, and the number of injured will be at least forty, several of whom cannot recover. At 10 o'clock the city is controlled by the police, aided by nearly a thousand of the State militia. Every part of town is patrolled by the soldiers, and the authorities seem to have the situation well in hand.

The trouble was brought about by four separate attacks of negro men on white women in one day. In the fighting negro women were the most warlike, urging resistance to the mob, and themselves fighting like amazons.

### Stamps' Colt Show.

Mr. J. E. Stamps will hold a colt show in Hopkinsville the first Monday in October of the get of "L. A. D." For the best sucking colt he will give \$15, the second \$10, the third \$5. Everybody having colts bred by "L. A. D." is requested to bring them and complete for the prize. —Fairview Review.

## GREATEST MEETING YET HELD.

Over 20,000 People Went to Guthrie to Attend Association Meeting.

Parade Five Miles Long—Enough to Eat For All and Fine Oratory Were Features of the Day—Old Officers Re-Elected.

Guthrie, Ky., Sept. 24.—With 24,000 people in attendance, the second big gathering of the Dark Tobacco Planters' Association of Kentucky, Tennessee and Virginia held in Guthrie, was practically twice as large a meeting as the one of last year. The growers of the "Black Patch" from the three States were out in force, glorifying in the wonderful success of their organization and full of the exultation of enthusiastic determination.

The big parade, unique and remarkable in many features, passed through the city at 11 o'clock Saturday morning and made its way followed by thousands of people to the fair grounds, where the speeches were made and probably the greatest barbecue of recent years in Kentucky was served.

In every respect the day was a great success, and the only regret was caused by the indisposition of Felix G. Ewing, the general manager of the Association, who was forced to remain in his room at the hotel. Mr. Ewing is suffering from

nervousness caused by overwork, and though his condition is such that he was confined to his bed, it was thought that he is not seriously ill. Trains all Loaded Full.

The trains were arriving at Guthrie almost all day Saturday. When the morning trains passed through the surrounding country on their way to the gathering place, hundreds were unable to find room on them, and were forced to wait until later; extra provisions having been made by the L. & N. To many of those who came to Guthrie it was considered to be almost absurd for a city of only one thousand inhabitants to attempt to entertain such a concourse of people. They soon found, however, that they had reckoned without their hosts and that systematic preparation on an unlimited scale had furnished ample provision and that the people of Guthrie were ready for eight or ten thousand more than arrived.

It is said by those at the head of the Association that if it had not been for the heavy rains during the last few days, the crowd would have been in excess of thirty thousand.

### Bountiful Supply to Eat.

W. C. Balee, chairman of the Committee on Arrangements at the fair ground, was delighted with the results. He said that the supplies had included the following remarkable items: Five thousand pounds of bread, nine big barrels of pickles, 20,000 wooden platters, 517 egg-cases. Every platter was filled high and there was enough for two full meals on each. That the work of the committee was appreciated was attested by the condition of the platters half an hour after the dinner had been announced.

Among the speakers were the following: Senator Bob Taylor, of Tennessee; Congressman Ollie James, Congressman A. O. Stanley, former Congressman John S. Rhea, Lawrence Finn, C. H. Fort and Joel B. Fort. They spoke from the five different stands at the grounds. Ten brass bands furnished much music of a lively character, "Dixie" and "My Old Kentucky Home" being the most frequently played airs. In behalf of Mrs. Felix G. Ewing, wife of the general manager, Congressman Stanley presented the association with a handsome banner. The background was of white, and Mrs. Ewing had embroidered upon it a big tobacco plant in green silk.

### Old Officers Re-Elected.

When the parade reached the big fair grounds the election of officers was held in the grand stand. All of the officers were re-elected, as follows: General manager, Felix G. Ewing, of Glen-Raven, Tenn.; president, C. H. Fort, of Robertson county; vice-president, E. T. Bondurant, of Rice Depot, Va.; treasurer, George Smadon, of Guthrie; secretary, Mrs. N. H. Green, of Glen-Raven, Tenn.

The barbecue was arranged on five tables, each 250 feet long. The food was placed on wooden platters and was ready when the guests arrived. Everything was free, and it has seldom been that such an immense throng of people have been served at the same time. Within the race course were the long pits where the sheep, hogs and cattle had been prepared by the process known only in its intricacies by the old-time negro

## GRIEVANCES WERE HEARD

Council Listens to Reports, Petitions and Complaints.

TWO ORDINANCES PASS

Important Work Assigned to Corporations Committee. Other Business.

The Council met in regular session Friday night, the Mayor presiding and all of the Councilmen present. The meeting was devoted mostly to hearing reports, petitions and grievances. A fine assessed upon John Moore, colored, for carrying a concealed weapon was remitted. The officers reported that while Moore was technically guilty, he was taking the pistol (a broken one belonging to another party) to his home to repair it, when the officer arrested him.

The ordinance regulating the erection of buildings in the fire limits was amended so as to prohibit any buildings, the walls of which are not wholly of stone, brick or concrete. This will prevent any more iron buildings.

An ordinance was also passed ordering down a brick or concrete pavement on the north front of the South Kentucky College property, from Belmont street to the northeast corner of the college campus.

The street committee reported that the small wet-weather pond in Chas. Knight's yard could be removed by a slight fill, which was recommended. The street committee was directed to confer with the L. & N. railroad officials relative to the condition of the crossing at Seventh street, the drainage at Tenth street and the removal of the freight car tracks from the lot west of the passenger depot. The committee will ask the railroad to remove its coal yard to some other point and beautify the unsightly square around the passenger depot.

The corporations committee was directed to take up the matter of renewing the contract with the Water Company and making a new contract with the City Light Company. The street lighting contract expires soon. The Water Company's bill for \$2,295 for 119 fire plugs from February to August was presented and laid over until October, as all bills are paid at the first meeting of each month.

A warrant was drawn covering the bill for hose ordered paid last month and overlooked, amounting to \$1,030. The hose was bought last February. City Tax Collector Moore reported several mistakes in the old tax books and asked authority to correct them. He also asked to have several sales for taxes set aside, as the parties had paid the amounts due and redeemed the property.

The street committee was instructed to confer with the owners on the alley in the rear of the Chinese laundry in regard to having it put in a sanitary condition. Health Officer Woodard has made so many complaints that the Councilmen referred to the alley as Woodard alley and it will probably be given that name. It will probably be considered again at the next meeting and some action taken.

### MISTOOK SON

For a Burglar and Killed Him.

John Monroe, of Olmstead, started to his barn with his gun to watch suspects. His son, Henry, about 15 years old, followed close behind the father. Mr. Monroe not knowing his son was near, heard a noise, and turned and saw some one following at a close distance. Never dreaming it was his son, the father turned and shot and instantly killed the boy. The father is prosecuted.

## PRETTY HOME WEDDING

Miss Delle Gaines Becomes the Bride of Mr. Byron Meador.

Mr. Byron Meador and Miss Delle Gaines were married at 10 o'clock yesterday morning at the home of the bride's mother, Mrs. Mattie Gaines, on South Main street.

Rev. Geo. C. Abbott, rector of the Episcopal church, performed the ceremony, according to the ritual of his church.

The parlors were prettily decorated with flowers and ferns and Mrs. J. H. Anderson played the wedding march. The bride and groom were preceded by two little flower girls, Elizabeth Gaines and Alice Wall.

At the conclusion of the ceremony, in which a ring was used, Mr. and Mrs. Meador were congratulated by those present and left at once for the I. C. depot, where they took their 11:20 train for their future home in Memphis.

A number of their young friends accompanied them to the depot and pelted them with rice as they boarded the train.

Mr. Meador is the only son of Mr. A. J. Meador and is connected with the clerical department of the I. C. Railroad at Memphis. His pretty bride is one of Hopkinsville's loveliest girls, a graduate of Bethel College and is attractive and accomplished. They bear with them to their home the good wishes of a host of friends.

They received many handsome bridal presents.

## LITTLE BETH THOMAS

Has a Collar-Button Removed from Her Throat.

Dr. F. P. Thomas took his little daughter, Beth, to Rochester, Minn., last week to have a ring removed from her throat, where it had been lodged for four years. The operation was performed Saturday and instead of a ring the obstruction was found to be a collar-button. He wired that her condition following the operation was serious, but as no further report has been received it is assumed that the child is getting along well and can be brought home in a few days.

## MAN KILLED.

Body Ground to a Pulp By Train.

An unknown white man was killed by a train at Guthrie Saturday night. His body was cut in two and his head severed. The supposition is that the man was lying between the rails as he was not seen until the accident had happened. He appeared to be about 65 years old.

## HORSE SHOW.

Pembroke People Ready for the Big Event.

Friday and Friday Night to Be "Hopkinsville Day."

The enthusiasm of the people of Pembroke and vicinity has about worked up to white heat over the horse show, which begins Thursday and closes Saturday night.

The grounds are in excellent condition and the entries already made justify the assertion that the three days of the show will be the biggest event in the history of the city.

Then, the programs are so much more elaborate than they have ever been before, and the purses so much larger, that the horses to be exhibited this year are of a much higher class and are more numerous than ever before. Every horseman of reputation within 100 miles or more of Pembroke has sent in his entries and every class will be well filled and competition will be close.

Most of the families of Pembroke and the neighborhood have made arrangements to entertain visitors and friends each day and the large crowd that will attend and remain over nights will be provided for.

Friday and Friday night will be "Hopkinsville day." The people of the city are interested in the success of the show and large delegations will be on hand each day and night. In order to allow Hopkinsville visitors the chance to return home each night, the gentlemen in charge of the general arrangements have made arrangements with the L. & N. officials to have the fast 10 p. m. train stop at Pembroke and bring the visitors back, arriving at the usual retiring hour.

## THIS FARCE COMEDY

Promises to Be One of the Big Hits of the Season.

The attraction at the opera house tomorrow night will be one of the most unique of the season, "My Wife's Family," a musical farce comedy by two of the most recent and successful producers, Stephens and Linton. It is hinged on the mother-in-law proposition, but new twists are given to the situations and new ideas are introduced into the comedy so that the old familiar theme seems entirely new. The plot deals with the efforts of a young husband, assisted by a friend, to rid his house of a horde of his wife's relatives, who seem determined to live with and upon him forever. He succeeds, but not until he has resorted to everything short of murder, and even then the storm-center of innumerable misadventures and complications. This piece promises to be one of the big hits of the season.

## The Old Reliable Jewelry House

of Hopkinsville, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

**HOW IT IS PUT IN PAILS FOR NAVAL PRACTICE.**

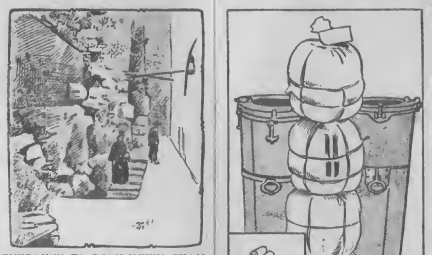

**One of Them May Have Been the Place Where the Christ Was Confined—Picture on Wall Shows Him in Stocks.**

Considerable interest has recently been awakened in Jerusalem in some newly opened-up ancient subterranean rock-hewn chambers which evidently adjoined, if they did not form part of, Pilate's Judgment Hall, and the "pavement" or the fashita, of the New Testament. This was contiguous to Antonia, the Roman fortress which bounded the temple area on the north. As is well known, a considerable area of this "pavement" as it was in the time of Christ, was uncovered in about 1860, when the Sisters of Zion dug for foundations for their school and the Church of Ecce Homo, and now forms one of the chief objects of interest to visitors to the Holy City. It is in the property adjoining that of the Sisters of Zion on the west that the chambers in question may now be seen. They are at the base of the hill Bezatha, on the north side of the Via Dolorosa in the scarp face of the rock which, with its counterpart on the south, is thought to have formed the moat on that side of the fortress of Antonia in the time of the Romans. There are several of these rock-hewn chambers, at different levels, connected with each other by passages. The upper ones are small, while one at a lower level, semi-circular in form, is larger, and all of them present unusual features in form which make it difficult to determine the use to which they were devoted—whether as mortuary chambers or as stables and storerooms, or whether, as is now claimed by the owners who have opened them to the public for inspection, they were used as dungeons and places of torture in ancient times. Their adjoining the Roman Judgment Hall favors the idea of the prison. In several of the chambers there are holes in the sides and ceiling at regular intervals through which ropes could be fastened. In one of the smaller rooms there is a rock-hewn ledge or bench of rock, open beneath, with two large holes through the ledge, which are claimed to be stocks. There is an iron eye fixed in the rock beneath the holes as if to there tie or chain the feet of the prisoner, while above, in the ceiling, there are three places cut out through which ropes or chains could be passed, suggesting the fastening up of his head and outstretched hands.

There are 125 men employed in the various departments of the plant, which comprises six spacious brick and stone powder magazines, 200 by 50 feet in size, four shell houses, two general storerooms and four powder filling buildings.

Interior of one of the powder filling houses on the island presents a novel and animated sight. The men are required to wear long white serge suits and moccasins, and no metal articles are allowed in the pockets which might cause friction. All the tools, funnels, measure cups, scales and other appliances used are made of copper. Here the delicate and somewhat dangerous business of weighing out the various smokeless powder charges is done. Two grams difference in weight is carefully observed. At the Indian Head proving grounds the naval ordnance experts by tests determine the powder charge best adapted for the various guns.

These firing charges are constantly being changed and reloaded, which keeps the filling house men very active. Daily boxes of smokeless powder are emptied into a long wooden trough. The powder falls like cut up sticks of yellow candy with holes punched through them. With a copper scoop the powder is dipped out of the trough, accurately weighed, tied up in quarter, half and full charges in white bags. These bags have several wide streamers attached, and each is tagged with the date of filling and amount of the powder it contains. A small ignition

**CHARGE OF SMOKELESS FOR 12-INCH GUN.**

charge of quick burning black powder is stored in the bottom of each bag. They are then placed in large copper cans and are ready for transfer aboard ships.

The heaviest charge used in the navy weighs a little over 220 pounds, and is arranged in four quarter charges of 55 pounds each. This is for the 12-inch gun. The bags, when piled one on top of another, reach to the top of a man's head and present a formidable sight of bottled up destruction.

Another important operation performed in the filling house is loading the 13 and 12-inch projectiles with their bursting charges. For the former 50 pounds of black powder is used, and about 35 pounds for the 12-inch. To hold the shells steady and to get at the base of these huge steel missiles, weighing over 1,000 pounds each, they are roped in a sling and hoisted clear of the floor by a pulley and chain. The point is then lowered a foot or so below a stationary platform with an opening a trifle larger than the shell. A long, narrow bag is inserted, and with a funnel the black powder is pushed over 1,000 pounds measure into the shell. Some 50 of these giants can be loaded in a day.

Just how many shells Uncle Sam's crack fighters have stored down out of sight in their holds is not generally known, nor the cost of these death dealing missiles. Each 13-inch shell, when loaded with 220 pounds of powder, comes out at \$45, the 12-inch, with 125 pounds of powder, to over \$200. The capped armor piercing shells are considerably more costly than the common pointed ones. One of our big battleships carries 96 12-inch armor piercing, 144 12-inch common shells, 720 8-inch common shells, 720 8-inch common shells, 3,000 3-inch common shells, 7,200 3-pounder cartridges, 2,400 1-pounder cartridges and 300 3-pounder field gun cartridges, and this supply of about 17,000 shells and cartridges costs nearly \$700,000.

**A New Problem For Women.**

In the looking-glass a woman often sees wrinkles, hollow circles under the eyes, crow's feet—little because she did not turn to the right remedy when worn down with those troubles which are distinctly feminine. Backache, lassitude, nervousness and the pains and drains of womanhood bring each unlooked-for trouble to the face.

Every woman young or old, is well protected from the blues, nervousness, backache, and the many symptoms of disease so prevalent among our women—if they will conscientiously take Dr. Pierce's Favorite Prescription, a safe and sure remedy for the ills of womanhood, because it contains not a particle of alcohol, datura, or any deleterious drugs. Weak women are made strong and old women are made well by this splendid prescription which was used by Dr. Pierce in his large private practice in the specialty of women's diseases. Every woman troubled in this way should write him about her case, care of Dr. J. C. Rorer, Medical and Surgical Institute, Duluth, N. Y.

Many women call on their family physicians, offering them the picture of a faded, nervous, and ailing woman, from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and

## THE PLAIN TRUTH.

What More Can Hopkinsville People Ask?

When well-known residents and former residents, highly respected people make such statements as the following, it must carry conviction to every reader:

W. H. West, stock raiser, city constable and collector, who lived at 849 West Seventh St., said: "I suffered for years with kidney and bladder troubles, and in consequence was subject to a great deal of pain. There was a heavy dull aching in the small of my back over my right hip and extending down over the bladder. The pain became especially severe if I should stir around or remain long on my feet. The difficulty of the kidney secretions annoyed me at all times. They were scanty, irregular, and the passages were accomplished with a burning sensation. I heard so much about Doan's Kidney Pills that I got a box and gave them a trial. I found that they benefited me in every way, so much so that I took the occasion to recommend it to my friends. I hope that it will be the means of relieving others who may be suffering from that common complaint, 'kidney trouble.'"

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## IN MEMORY OF DR. RUST

Friends Propose to Put Fine Window in New Church.

At a special meeting of friends of the late Rev. J. O. Rust, former pastor of the Edgefield Baptist church, held at the old church, Thursday night, the American says a movement was substantially started to place a memorial window in the new church for Dr. Rust, whose dream was the building of the new church now nearing completion. The matter was brought up by the personal friends of Dr. Rust, and the plan is to spend about \$700 for that purpose.

The new church is to cost about \$55,000, and it will soon be ready for the windows.

## TOWN THAT'S DOOMED

ROOSEVELT, IN ARIZONA, TO GO DOWN TO A WATERY GRAVE.

Battling Community Called Into Being by Building of Irrigation Dam Will Perish That the Desert May Be Made to Bloom.

Perhaps never before in the history of the United States has a town been permitted to look forward to its utter obliteration as does the town of Roosevelt in southern Arizona, where the government is rapidly completing a great dam which will in less than 25 miles long and two wide, the waters of which will be used to irrigate immense arid wastes and make them burst forth into fruit and blossom.

Pompeii and Herculaneum were covered by the ashes of Vesuvius. Nineveh and Babylon were abandoned to the desert's shifting sands, but Roosevelt is to be buried beneath the flood of waters which in less than two

BAIRN OF LAKE SHOWING TOWN OF ROOSEVELT.

years is to be turned into the narrow valley.

Roosevelt came into being when the great irrigation project was first started and it will cease to exist when the engineers and army of workmen bring their labors to a close. To-day the town is a thriving, bustling community of 2,000 inhabitants, with electric lights, waterworks, sewerage, schools and churches; ultimately it will be but a memory. Roosevelt must perish that a desert may be made to bloom. Already the marvelous engineering work is well under way. The walls of the narrow canyon, through which Salt river rushes on edge are being locked by a massive monolith of solid masonry, the highest arch dam in the world.

This wonderful structure of sandstone and cement will be 280 feet in height from foundation to parapet, 210 feet long and 170 feet wide at base, and 700 feet long on top. Its culminated contents will be 300,000 cubic yards, and in its construction 240,000 barrels of cement will be required. Placed alongside of an 18-story skyscraper, this dam would rise ten feet above it, while its length on top would be more than two city blocks.

Roosevelt is a government town, and the rules laid down are simple and effective. Uncle Sam owns the ground upon which the town is erected, and the people are there merely by sufferance. No man may erect a town lot which faces the main street unless he is engaged in a legitimate business, and has continuous possession of the property dependent upon his own conduct. The results are in marked contrast with those which followed the location of new towns on other projects where the government could not exercise any supervisory control. The laborers are contented. They are depositing a large part of their earnings in the savings banks, and the number of 10 to 20 are accorded the first dance, those from 21 to 40 the next, and so on.

Just across the river the tepees of the swarthy Apaches dot the plain. The warriors of old Geronimo, now Uncle Sam's faithful laborers, dwell in peace and harmony with his once deadly enemy. In the winter months, each doing his full share of labor in constructing the engineering marvel of the age.

But while the city of Roosevelt, with the homes of 2,000 inhabitants, is doomed, a fair valley is to be redeemed, in the evening the town hall ablaze with lights, is given up to dancing. Males predominate, so there are no lady waitresses. Notwithstanding this disparity, no personal encounters have resulted, the slogan of the camp being "fair play," and the rules of deportment are rigidly observed. Each man is given a badge, and numbers 1 to 20 are accorded the first dance, those from 21 to 40 the next, and so on.

The great lake which will be created by the Roosevelt dam is to be tapped by canals hundreds of miles long and extending all over the broad valley around Phoenix. Vast areas now almost a waste will be transformed quickly into blossoming orchards and purpling vineyards, and hundreds of happy homes will dot a plain where now the giant saguaro

## Paint Which Lasts

Painters, and all others who understand paint, know that white lead and linseed oil make the best paint. Good, lasting paint cannot be had if either pigment or oil is adulterated.

Many of the so-called white leads sold now-a-days have barytes, rock-dust, silica, gypsum, etc., in them, and little real white lead.

Linseed oil is also frequently adulterated. Such mixtures are dear at any price.

FOR CONGRESS.

A. O. STANLEY,  
OF HENDERSON.

Reports from Cuba indicate that the insurgents and government leaders will reach an amicable understanding and that a peace agreement will be signed, which will obviate the necessity of armed intervention.

Judge Henry B. Hines yesterday withdrew as a candidate for state auditor. This leaves Henry M. Bosworth of Lexington as the only candidate for auditor and insures him a clean field. Two other candidates are expected to retire this week.

The epidemic of flies which has almost broken up the schools at Milwaukee has not yet been controlled. The flies are being fought with kerosene. At Rockford, Ill., there is a similar trouble and some residences have been temporarily abandoned to the pests.

Peter Zarcane, a boy near Danbury, Conn., went into a field infested with snakes to drive out his cow on Sunday and took his gun along as a protection. He was attacked by an adder and shot the snake. Next day he was fined \$10 for shooting his gun on Sunday. Some of the Connecticut laws are still pretty blue.

At Asheville, N. C., the County Clerk, having occasion to be absent, left his 17-year-old daughter, Miss Emma Dills, in charge of the office and signed up several marriage licenses in blank to be used if called for. The girl filled out one for herself and when the old man returned he found her married to a young man he had refused to accept as a son-in-law.

In the suit of J. Mark Worton against the Register publishing company, of Paducah, for \$50,000 damages for alleged libel, in the Livingston circuit court, the jury returned a verdict of \$1,000, under peremptory instructions from Judge Gordon. Although both parties are residents of Paducah, the suit was brought in Livingston county. The costs in the suit are as great as the judgment. The libel bill defeated by one vote last winter sought to correct this great injustice to newspapers and compel suits to be brought at place of publication. An appeal will be taken.

### Torture By Savages.

"Speaking of the torture to which some of our savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys, says W. M. Sherman, of Cushing, Mo. "Nothing helped me until I tried electric bottles, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria, and restores the weak and nervous to robust health. Guaranteed by R. C. Hardwick, druggist. Price 50 cents.

### Stray Hog.

A large, black sow has been missing from my place since Sunday night. She weighs about 200 pounds. She is a solid black, with no marks. Reasonable reward.

### GREATEST MEETING

HELD YET.

(Continued from First Page)

"barbecuers," who were present in force.

For two nights and a day the coals had been kept glowing in the pits and the feast that was spread was bountiful enough for an army and was good enough for kings and princes.

### Planters Parade.

The parade represented all of the counties in the belt and Robertson county, Tenn., sent a delegation that extended over three city blocks when these men were marching four and five abreast. The procession was full of interest from many points of view. It was led by the officials of the organization and women on horseback, then followed the speakers in carriages. The main body was made up of the sturdy members of the association, who have banded themselves together with a single purpose.

They marched with quick and lively step and answered the cheers from the crowds, as if their enthusiasm simply could not be held down.

The floats were works of art and were occupied by groups of beautiful girls, whose appearance made the men of the three states repeat the oft told tale that their equals could not be found in any other section of this wide world.

### "Down With Trust."

Last, but not the less proud, came the negro delegation, led by big-chested and high-stepping Rufus Andrews, bearing a big banner with the following inscription: "Down with the trust or we niggers bust."

This banner created great enthusiasm all along the line, and it was only with a tremendous effort that Rufus, the proud, kept his swelling chest from actually exploding. He smiled with a grin that would have made the fortune of a minstrel and walked with a stride that would have done credit to the best thoroughbred.

## You Look Yellow

The trouble is, your liver's sick. One of the products, "bile," is overflowing into your blood.

You can't digest your food, your appetite is poor, you suffer dreadfully from headache, stomach ache, dizziness, malaria, constipation, etc. What you need is not a dose of salts, cathartic water or pills—but a liver tonic.

## Thedford's Black-Draught

This great medicine is so gently on the sick liver, it cleanses the blood, renews the appetite, feeds the nerves, clears the brain and cures constipation.

It is a true medicine for sick liver and kidneys, and regulates all the digestive functions. Try it.

At all dealers in medicines in 25c packages.

### shown at the Kentucky state fair last week.

Another banner that attracted much attention bore the picture of an unscrupulous farmer milking his neighbor's cow by reaching through a barbed wire fence. The most utterly damning term in the vocabulary of a member of the Association is "Hill Billy," which means a friend of the trust. Upon this banner was written "Hill B. L. milking his neighbor's cow."

One float was in the form of a big black boat and bore the inscription: "Black Patch," and at one end was written "C. H. Fort, Captain," and at the other, "F. G. E. Wing Pilot." It took the parade one hour and ten minutes to pass.

### Praise Association Work.

In every speech of the afternoon the great work of the association was praised and high tribute was paid to the men who have organized it successfully and made it a factor in the tobacco market of the world. Compliments were paid especially to Felix G. Ewing, who has been at the head of the organization. All references to the trust were cheered loudly and every speaker was confronted by an enthusiastic, appreciative and earnest crowd.

### MONEY ORDER

"Raiser" Said to Be Working in This Section.

The Postoffice Department, through its inspector in charge at Cincinnati, has sent to Postmaster Breathitt the following:

"Your attention is called to the operations of a Money Order 'Raiser,' who is now working in the cities throughout this section. His practice is to purchase orders for small amounts, usually 25 or 30 cents, and raise them, by writing in the words and figures to amounts in the neighborhood of \$50 and \$60. He usually visits jewelry stores in the evening, and after making some small purchases, tenders the order in payment, stating that the post-office is closed. The average merchant fails to notice the coupon on the order, in which it states that the order is not good for a sum larger than is indicated in printed figures thereon. The work is crude and easily detected. The party has used the name James Hart, Thos. Word, James Smith and John Kennedy and his description is as follows: Age, 55 to 60 years; height 5 ft. 10 in. to 6 ft.; hair gray; smooth face, slightly deaf; wears ordinary suit of working clothes, and black slouch hat; has appearance of an Irish talk indicates that he is a railroad man or a telegraph lineman. In order that this man may be apprehended, you are instructed to notify, as far as practicable, the merchants of your city of this party, and instruct them that in the event of an attempt to pass such order by a party of this description, they cause his arrest by local officers."

### GOV. BECKHAM

Will be Greeted by a Large Crowd Monday.

Great preparations are being made to have a rousing crowd here next Monday, at 1:30 p. m., to hear Gov. Beckham speak.

### SHOW TO-MORROW.

One More Day to Wait For the Great Circus.

It is not only the innocent youth who are saying "Only a few more days to wait!" as the Barnum & Bailey circus beams in on the near perspective. It is a safe bet to say that even the "grown-ups" find themselves unconsciously anticipating circus day; the blood runs faster, imagination has freer play, and memory, with a little trick that is peculiarly its own, brings back other days, when the sawdust arena was the fulfillment of dreams of an earthly Paradise, and the clown was the most envied of men.

The circus has changed, just as the men and women and children who saw it a quarter of a century ago have changed. The circus of our "daddies" would fall far short of pleasing even the younger generation of today. The man who sighs for the "one-ering circus of other days" does not realize how primitive the best of the circuses was in those days until he sees a single-ring, cross-roads circus of the present. Then he knows that his conception of circus has grown with the growth of the modern ring show, and that, after all, the circuses of today is best.

The Barnum & Bailey circus, which will be here tomorrow, is, it is declared, a leader in this adaptation of old ideas in the arctic world to the more sensational demands of the present. This is accentuated by the near approach of circus day, and the interest that the coming of the show has aroused. This interest is undoubtedly vitiated by the fact that while the acts of the old-time circus that represent the survival of the fittest will be in evidence, there will, it is said, be so much that is new and timely as to practically constitute a revolution in arctic entertainment. "Pease," a strictly up-to-date representation of the Russian Japanese war; the latest things in acrobatic, equestrian and aerial endeavor; new things in trained animal displays; races that are really racing contests; sensational departures in which daring women shoot through space or turn somersaults in automobiles; and bicyclists who twirl in mid air on their wheels—these are some of the modern things that the Barnum & Bailey management promises to make known, and which are calculated to show the difference between the circus of memory and the circus of fact.

The watermelon crop this year was unusually fine and the market is still pretty well stocked with melons.

## SKIN ERUPTIONS FOR 35 YEARS

Suffered Severely With Eczema All Over Body—Examined 15 Times by Government Board Who Said There Was No Cure—An Old Soldier Completely Cured.

### A THOUSAND THANKS TO CUTICURA REMEDIES

"For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors. A friend of mine advised me to try Cuticura Remedies, and after using two cakes of Cuticura Soap, two bottles of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. I cannot speak too highly of the Cuticura Remedies. John H. Runch, Richmond, Mo. Co., Ohio, July 17, 1907."

## Southwest

The Land of BIG CROPS and  
PROSPERITY.

Are you making as much off your farm as you ought? No doubt you are making all you CAN. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost.

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in. Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

PRETTY CORSET - COVER AND  
UNDERSKIRT.

Patterns Nos. 5018 and 5610.—The making of fine lingerie is always fascinating employment, and much dainty handwork is now used in the making of these garments. Fine nainsook was selected for making the corset cover and underskirt shown in the illustration and Valenciennes lace in combination with hand embroidery was used for trimming. The one piece corset cover is the simplest of garments to make, and the circular shaping of the underskirt is to be recommended as it does away with all unnecessary fullness at the top. The yoke may be omitted if desired, as the garment is well fitted by darts. Longcloth, cambric and batiste are all suitable for the making. The medium size will require one yard of 36-inch material for the corset cover and four and seven-eighths yards for the skirt. Ladies' One Piece Corset Cover No. 5018: Sizes for 32, 34, 36, 38, 40, 42, 44 and 46 inches bust measure. Ladies' Circular Short Petticoat No. 5610: Sizes for 22, 24, 26, 28, 30 and 32 inches waist measure. The above illustration calls for two separate patterns. The price is ten cents for the corset cover and ten cents for the petticoat.

This pattern will be sent to you on receipt of 10 cents. Address all orders to the Pattern Department of this paper. Be sure to give size and number of pattern wanted. For convenience write your order on the following coupon:

## PROTRACTED MEETINGS.

Lafayette, Liberty and Olivet  
Churches Each Have One  
in Progress.

The people of the Southern portion of the county are being blessed at present with protracted meetings, there being one in progress at three important churches in that section, and it is said that great good has already been derived from the meetings and much more is expected before they all come to a close.

The pastor, Rev. Hazel, of the Baptist church at Lafayette, has been engaged in a series of special meetings for a week now and a great deal of interest is being manifested. Large crowds attend each service and it has not been announced when the meeting will close. He is being assisted by the Rev. Clay Hopewell, of Sturgis, Ky., who is said to be a very interesting and fluent speaker.

At Liberty, six miles from town on the Palmyra pike, the pastor, Rev. Humphrey, is being assisted in the meeting, which began last Wednesday night, by Rev. John B. Hawkins, of Lexington. Much interest is also being taken in that meeting and Rev. Hawkins is delivering some very strong discourses. Several have already joined the church and the meeting will continue until further announcements.

Rev. McGill, of the Olivet Baptist church, near Howell, began a series of meetings at his church Sunday night, assisted by Rev. M. E. Staley, of Morganfield. Rev. Staley has assisted in several meetings at Olivet and is a favorite of the congregation. The meeting will continue 10 days or longer and it is expected that much good will result.
